

To valued customer

December, 2021

Kuraray co., ltd.

Announcement of temporary plant shutdown of plastic scintillating fiber

Kuraray co., ltd. will implement a temporary plant shutdown in Niigata, Japan from August, 2023 to February, 2024 to do seismic strengthening works at the plant. We will be not able to produce "Scintillating fiber", "Wavelength shifting fiber", "Clear fiber" and "Plastic imaging fiber" whole this period. Although we will prepare some inventories against this shutdown, please understand there is a possibility for shortage of the inventories depending on the description and the quantity.

Please contact to sales person in charge at Kuraray Trading co., ltd. or psf@kuraray.co.jp if you would like to get more details.

We appreciate your support and understanding during this period.

Temporary plant shutdown schedule

From August, 2023 to February, 2024 (For 6 months)

Sincerely,

Koichiro Amemiya
